(Anderson/Cichon)

A love like ours is slightly out of time here
We need to find a way to set our souls free
Oh come away if you wanna know
A perfect place
Where only love grows

Moon and tide sing a song never ceasing
Sad souls cry out for the love of the sea
Oh come away if you wanna know
A perfect place
Where only love grows

CHORUS

Runaway and love will grow while we're waiting
Runaway find an easier way
Runaway from the end of all reason
Runaway we gotta do it today
Wax and wane flows
The sea never ending
Sails in the wind
Singing come unto me
Come

Oh come away if you wanna know
A perfect place
Where our love grows

Repeat CHORUS X3
Repeat Runaway X5
