All alone in a crowded room
No place for me to fit into
Empty face with a painted smile
But I don't know why

Still the same even if I try
I'm in the middle but I'm still outside
Can someone tell me where I went wrong?
I don't understand at all

But when You find me in my busy streets of emptiness
Remind me I'm not ever on my own

I don't know how You love me like you do
It's so good to belong with You
And in the places I'm a stranger too
It's so good to belong with You
To belong with You

Is it really worth it in the end
To try, try time and time again?
Looking for what has always been right there

And there's no reason I should ever feel alone
'Cause You are with me every where I go

I don't know how You love me like You do
It's so good to belong with You
And in the places I'm a stranger too
It's so good to belong with You
To belong with You

I belong with You
I belong with You

I don't know how You love me like You do
It's so good to belong with You
In the places I'm a stranger too
It's so good to belong with You
To belong with You

I belong with You

I belong with You
