Has everything you've counted on
Left you right here,
With no warning?
Have your dreams become invisible?
Wait with me dear,
Till the morning.
Light will make the night burn out,

Hold on,
Daylight is comin',
To break the dawn.
Daylight is comin'.

The brightest stars are falling down,
Is hope lost in the black skies.
The darkness must precede the dawn,
Wait with me here,
Till the sunrise.
Wait, your night will soon
Fade out.

Hold on,
Daylight is comin',
To break the dawn.
Daylight is comin'!

Hold, on
Daylight is comin'...
Daylight is comin'!

Hold on,
Daylight is comin',
To break the dawn.
Daylight, is comin!
