I heard so much of You, I wrote a book
Thick with facts of You that I heard were true
The critics read my work and they reviewed
You wrote of things he'd heard but never really knew

I'd say it's time that I get to know You
More than just what I've been told
I'd say it's time that I get to know You
I wanna know from my soul

I was so close but I was still without
How could I be so right but still be so wrong?
You're like a tune I've only heard about
Let me hear that song, hear it loud and strong

I'd say it's time that I get to know You
More than just what I've been told
I'd say it's time that I get to know You
I wanna know from my soul

I'd say it's time that I get to know You
More than just what I've been told
I'd say it's time that I get to know You
I wanna know from my soul

I'd say it's time that I get to know You
More than just what I've been told
I'd say it's time, say it's time that I get to know You
I wanna know from my soul

Get to know You, get to know You
Get to know You, get to know You
