Stand up

Why do our failures seem to have a voice?
They say we're lost and we don't have a choice
They're telling us that we're not capable
They say this prison's inescapable

Stand up now
They can't hold us down
Stand up now
Get up off the ground

Why does our brokenness keep whispering?
It's telling us that we're not anything
I say no fall is going to keep us out
This fear is something we'll forget about

Stand up now
They can't hold us down
Stand up now
Get up off the ground

We're fallen, it can't hold us down
These failures, they can't hold us down
We're broken, can't hold us down
We're fallen, get up off the ground

Stand up now
They can't hold us down
Stand up now
Get up off the ground

Stand up now
They can't hold us down
Stand up now
Get up off the ground
