The scar that's in My side says  
As the sea is wide, My love is more so  
I'm everything you need  
Don't you know the blood I bleed is for you, don't you  
know?

I bridged the gap you see  
And I'll supply your every lack and need  
To bring you back to Me  
You're so valuable

Child, can't you see  
You're worth more than all the world to Me? You're  
priceless  
The iris in my eye  
And I hold you up so high, I hold you priceless

I bridged the gap you see  
And I'll supply your every lack and need  
To bring you back to Me  
You're so valuable

Don't you know, you're worth so much to Me?  
Don't you know? Hey

I crossed the line, it's true  
When I left My throne behind for you  
I gave it all for you, you're so valuable

I bridged the gap you see  
I'll supply your every lack and need  
To bring you back to Me  
You're so valuable

Don't you know? Don't you know?

I gave it all for you, I gave it all  
I gave it all for you
