Jacket hung, were speeding five knots  
This heart needs a temporary shot  
Monsters, creatures so cynical  
Manic preachers singing too low

Tripping Maxine, tripping so high  
I always wanted to visit Dubai  
and keep it running always running the night  
to run, we run Toronto

Push, Shove  
and the scenery gives you taste  
Red Blood  
is Panama City waste

Cape Cod  
and the places that I pray  
No Love  
For a New York City flame

Pocket pennies not changing my luck  
Pick the memories which ones to lock  
Buffalo couldn't straighten my head  
All I did was take it to bed

Dream life I make you so fly  
Barcelona always looked nice  
Tomato, Bull Rider stay cool  
But don't be shallow  
Don't follow their rule.
