Well I've never seen you move like that,
No, I've never seen you move like that,
I hit you once andd I swear you hit me back,
No, I've never seen you move like that.

When you walk into the tide,
Well I wish that I could follow,
When you walk into the tide,
Well I wish that I could follow,

Woah Woah Woah Woah x4

Just another day when I was sailing on the sea,
I never hide my heart I always wear it on my sleeve,
And if everybody on this boat was just as pissed as me,
Then the ship would surely sink and that would be the
end of me.

When you walk into the tide,
Well I wish that I could follow,
When you walk into the tide,
Well I wish that I could follow,

(Guitar Solo)

Woah Woah Woah Woah x4
Woah Woah Woah Woah
