I know you still smelling on my sheet  
And now i know what it feels like to be crushed  
And now i know what it feels like to be a novelty  
And now i know what it feels like to be drowned  
By someone you love  
Its all over but im still choking on the lies (x2)  
How can we go on living line after line  
I can only stich myslef up so many times  
How can all this have happened in less than a day  
Then again it wouldn't have been the first time you  
threw us all away  
I've waited so long for someone like you  
To fill my days with ruin  
Every smile is a painful reminder  
Of how i let you continue  
All the tears in the world could never stop  
All the heartbreaking wreckage  
That you did  
I love that i can't get enough but i'd be lying if i said  
that i didn't expect  
It  
You've past me twice but our eyes haven't met again  
You turned my world into remnants of blood in my sink  
Will you pick up the pieces again?  
Or let them fall to ashes in yor pretty hands again  
You walk all over me  
It's all over but im still choking on the lies  
You walk all over me  
The pain ensues  
Knives can only go so deep  
You have penetrated the hardest heart  
And now i can't help but to return the favor
