I'm looking for something
Something uncommon with your kind.
Another side of you
another side of you, here beside.
I am going through something
Something quite common.
And I am leaving
And I am leaving

I'm looking for something
Something uncommon with your kind.
Another side of you
another side of you here beside.
I am going through something.
Something quite common
And I am leaving
And I am leaving
And I am leaving
And I am leaving
And I am leaving
