I come bearing legacy
That we caused your leaving our dawning land
I come with delivery,
And I have wrapped it in my mourning band

I bring you my history
That I expect your tender arms around me
Give it love and think of me
These are the letters from a compound
Seal it, guarded by a novelty

Where we release the premises too deep
Time finally caught up with me
Molded in the image of the feared fugitive

Don't doubt the playful
Say your greetings with goodbyes
Your cup is brim full
Silence sinking with a smile

Now we forgot
Tiny, tiny shot
Changes what is given to decide just who it's for

Don't expect to hear from me
As I have got to feed our hungry mouths
I do enjoy your company
But we must work to keep you content

I see the error and the worst in me
I release the premises too deep
Courage finally caught up with me
Molded in the image of the feared fugitive

Now we forgot
Tiny, tiny shot
Changes what is given to decide just who it's for

Don't doubt the playful
Say your greetings with goodbyes
Your cup is brim full

Silence sinking with a smile
