Tell me how, baby, could it open my eyes  
For a night, it took me by surprise  
Oh what you said to me  
Love me do  
Whatever you want back darlin won't be good  
That is why I woke and cried out  
Rocksteady can't break my world  
Nobody's gonna ever think twice  
Oh how I, how I often cry  
Rocksteady can't can't make that change  
Nobody's ever gonna re-arrange  
As time moves slippin' fast  
Love just won't become you  
Now my mind baby  
My mind is free  
Oh you played it hard lady  
So hard and deep  
Oh what you said to me  
Love me do  
Whatever you want back darlin won't be good  
That is why I woke and cried out  
Rocksteady can't break my world  
Nobody's gonna ever think twice  
Oh how I, how I often cry  
Rocksteady can't can't make that change  
Nobody's ever gonna re-arrange  
As time moves slippin' fast  
Love just won't become you  
Rocksteady can't break my world  
Nobody's gonna ever think twice  
Oh how I, how I often cry  
Rocksteady can't can't make that change  
Nobody's ever gonna re-arrange  
As time moves slippin' fast  
Love just won't become you
