"Where Are We Going?"

Visit "[Where Are We Going?](#)" on MotoLyrics.com

Day in and day out
Sidewalk sleepers turn in to bow
And day by day the work gets done
And day by day another war goes on

Where are we going?
And words are few, just show me
Where are we going?
With all that's going on there, are we getting?

Day in and day out
The air gets bad when people shout
And day by day frames get higher
Lies and hate, they fume the fire

Where are we going?
And words are few, just show me
Where are we going?
With all that's going on there, are we getting?

Where are we going?
Where are we going?
