Words cut white skin
To shreds
Before you come downstairs
With your nonsense

I'll be a devil
That you bleed (?)
Take your anger
Out on me

I'll leave all good things behind
Gather all these stones
How would you know?

I am a stranger
When you need
To take your anger
Out on me

You're not supposed to drink
It fucks up how you're supposed to think
And oh, look what you've done now

And I'm not supposed to know
All those little things
That go on inside

You are a stranger
I bleed (?)
I'll be the devil you need
Take your anger out me
