Hey, are you lonely?
Summer gone so slowly,
That We found the ground,
And that damage was done.
It's cold as you fade into the sun.
Where'd you go To me?
But you're alive!
Well, it's only
Fallen frames, they told me.
You stand out, it's so loud...
And so what if it is.
As cold as your face into the wind.
Where to go?

Chorus:

Tonight the sun shall see it's light,
So what if you catch me,
Where would we land?
somebody's life
For taking his hands.
Sing to me hope as she's
Thrown on the sand.
All of our work
Is rated again.
Where to go?

You were..somehow..you made this thing collide
I try, But it's all wrong, you're so strong.
But this life and work
Your choice took far too long.

Where to go?
Tonight the sun shall see it's light, etc..(cept "all our
WORTH is rated again")

Repeat chorus.

And I was sure you'd follow through,
When the world was turned so blue.

And you'd hide your songs or die,
So I'd hide yours with mine.

And all my words were bound to fail.
I know you won't fail...

See, I can tell...
