"Gold Star Speaker"

Visit "[Gold Star Speaker](#)" on MotoLyrics.com

Who was gonna tell you
That I can speak a word?
But it's almost taken over
Into the gold

Our first days are over now
The machine has come undone
And the last ones will remember us
Just like any dream

Star speaker into the gold
Star speaker

I was gonna tell you
Through the words sent over at last
It's a long stretch out of the marrow
And into the best star speaker

Star speaker into the gold
Star speaker

I was gonna tell you
Through the words sent over at last
It's a long stretch out of the marrow
And into the best star speaker

Star speaker into the gold
Star speaker
