Imagine this, we live amongst the stars
And you kill us with your wars
Just be with me, we'll lay here in our nonsense
I made a pact, to be your final act
Oh what a day, fade our love away
I'm sorry, for your loss, but it's my loss
Because all that time you were grieving
I couldn't be with you
I'm sorry, for your loss, but it's my loss
Because all that time you were grieving
You weren't totally you
Imagine me, a sun amongst your stars
Could I be where you are?
Can I drown in your presence?
Let me have today
All, this is our sky
It is our bed
It is our minefield
This is our sky
You are gravity
I'm sorry, for your loss, but it's my loss
Because all that time you were grieving
I couldn't be with you
I'm sorry, for your loss, but it's my loss
Because all that time you were grieving
I lost you.
