Five below, watch the headlights rush by
Monday morning, tired voices, cloudy sky
Dreams of sun lit hazy days
Silver screen, won't you please take me away?

Has the style, that's what everyone says
Created image, she's an idol of the age
Acting like a little child
Could you love her if only for a while?

She only wants to be a star
Longs to be just where you are
You're the dreamaker
Please don't forsake her

She's only living for today
Don't you take her breath away
You're the dreamaker
You know you should take her where you go

Teenage days in her room of fantasy
Evening falls, buy a ticket to your dream
Watching lovers play their part
Could she be just another lonely heart

She only wants to be a star
Longs to be just where you are
You're the dreamaker
Please don't forsake her

She's only living for today
Don't you take her breath away
You're the dreamaker
You know you should take her where you go

Hid from shadows of the light
How she cries for you at night
Fame and fortune calls her name
She'll let you steal her heart away

Trade her soul for tenderness
A gentle touch, the warm caress

Be the star of every show
Dreamaker take her where you go
