1st

In this darkest time you'll be afraid when arrive
Your death day.
When she takes your hands and the sun goes down in
The end, of your life.
Don't be afraid when lady looks into your eyes,
And takes your soul away.
You 're in the wind my friend, in the rain again,
In my mind you live with me.

Rit

Lady is near, you're not alone like a star
You 'll shine in the sky.
Now you understand, this life is like
A burst of flames.

Rit

Lady is near, you're not alone like a star
You 'll shine in the sky.
Now you understand, this life is like
A burst of flames.
Let me see ah... let me feel, look at me
Angel of death.
Let me scream while... you open your wings and
Leave from earth with my friend.

Fin

Oh... lady of darkness this is a pray from my heart
Oh... lady of darkness takes all my dreams to my friend
Oh... lady of darkness you aren't my friend until I diee
rain again,
In my mind you live with me.
