You broke my heart
One too many times
Heart-ack & pain
Was all i could find
Yeah
Uh

Boy your caught up in the game
But i know that even though
Your not the same
You should know what's right
Only a look of you
And the things we use to do
Makes me realize
Oh baby, i realize
Cause i gave you everything
And so much more
I thought you were the one worth
Waiting for

Now i know it's true
How could i be a fool
It's all about you, oh baby

You better stop telling me lies
You better start doing me right
I aint gonna make the same mistake twice
That's why im leaving tonight
This aint the way to be
Whatever your trying to say
Boy your not the one for me

Boy what you did was just so bad
And baby it's so sad
How could you leave me just like that
Then say you want me back
Now you are not the same
And im not the one to blame
You played yourself
In this stupid game

Cause i gave you everything
And so much more
I thought you were the one worth
Waiting for
Don't take it personal
Oh it's a simple case
Just get out of my face (baby)

You better stop telling me lies
You better start doing me right
I aint gonna make the same mistake twice
That's why im leaving tonight
This aint the way to be
Whatever your trying to say
Boy your not the one for me

Uh yeah
Uh yeah
Uh
Baby
Yeah
Uh yeh uh yeh
[laughing]

Cause i gave you everything
And so much more
I thought you were the one worth
Waiting for
Don't take it personal
Oh it's a simple case
I had enough of you
(just get out of my face) (baby)

You better stop telling me lies
You better start doing me right (me right)
I aint gonna make the same mistake twice
That's why im leaving tonight
This aint the way to be
Whatever your trying to say
Boy your not the one for me

You better stop telling me lies
You better start doing me right
I aint gonna make the same mistake twice
That's why im leaving tonight
This aint the way to be
Whatever your trying to say
Boy your not the one for me
