Life is good, life is grand (oh, oh, oh)  
And once in a while, I understand  
So let the song dictate away, (put it in  
Your hand)  
Happiness live for today...  
Making it in a tent at a festival  
Home to yours to meet Mom and Dad  
I never meant to make them mad  
I kinda hoped to make their day, (you know  
It sure made mine)  
When I heard myself say...  
We made it in the tent at the festival  
And now the years have come and gone,  
And still it seems our favourite song  
Reminding us of a special time (lost in  
Afterglow)  
When me and your Mom were looking fine...  
You were conceived in a tent at a festival
