

Ice Station Zero

"Day By Day"

Visit "[Day By Day](#)" on MotoLyrics.com

There once was a time
when there were no worries in the world
As far as we knew
we were invincible

We take it day by day

It's funny how things change
and the way it works I find it strange
Only know what you see
and I know that nothing comes for free

Go away, I wish this would go away
I can't find the right words to say
We'll take it day by day

Still, I can't get over it
It's not easy to admit
Still I hide what's inside
It's so easy to run and hide
