Half hung-over from the night before,  
My sisters passed out - outside my door  
My niece got her hash from the boy down the street,  
who's inbred too. He has webbed feet

Dinner time is our happy time  
it's when we all get together and just un-wind  
My mom, on top my dad, on top my bro, on top my  
niece  
It's all just one big inbred feast...

Cuz I'm an inbred mother fucker...

I wasn't always like this, I really think so  
'til uncle john corrupted me  
and taught me to blow  
I was never allowed  
to spend the night away from my sister  
If you can't beat 'em,  
then join 'em  
so I decided to kiss her  
Her hand on top my leg, on top her chest, on top my  
thigh  
Blood is blood,  
even if it is your sister's cherry pie

Life's been different since I've gone inbred  
My brother and my sister now sleep in the same bed  
We all run around...naked...hanging free  
Grandpa even lent me a pair of his false teeth  
So don't run from this idea,  
it might suit you  
If you really love your family  
You'll be inbred too
