

## Ice Station Zero

### "Leave It Alone"

Visit "[Leave It Alone](#)" on [MotoLyrics.com](#)

I'm not suggesting - to change your ways  
to break out of your daze  
this world is fair, we really know it isn't  
you should even care

I'm not suggesting - how you should live  
It's better to forgive  
to play along  
I'm right and you're wrong

and I smile and I wave  
we pretend everything's okay  
things got all mixed up  
they got all fucked up  
just leave it alone

Rolling down the street  
everybody's always looking at me  
we roll down the street  
everybody's looking at me

I'm not suggesting - I've been there before  
you should always want more  
I've paved my own way  
It won't end one day
