Still independent reppin the south together with my
clique
We make connections like coalition that shit diplomatic
Winnin grindin steady mobbin the top is approachin
We be goin to progression but them haters
schizophrenic
Haters gonna hate foreva poison water cabin fever
Automatic killing machine I couldn't escape the life
prison
Go ahead say it say it again like you've said it
yesterday
Yeah I get more heads than the headless horseman
If a bitch try me then I am a her addiction as crack
She's begging me for more like I'm the only one left
Gotta fetish to sleep surrounded by the dead
presidents
Bad newz choppa soundz goin waka flocka flame
Goin hard on this beat like buldo over lego bricks
Leavin your face fucked up like emo freak
When they see me rollin they be goin asthmatic
Wait for the second chapter which is more dramatic

(HOOK)

Haters talking shit but I don't give a fuck
I ain't do nothing just my middle finger up
That lady call me addiction she's asking for more
That gal said she loves me but I ain't got no LOVE

I ain't got no feelings I gotta heart on froze
Ice Cold
I ain't got no feelings I gotta heart on froze
Ice Cold

My Name is Invincible; Your Name is Weakness,
The life is cruel, Your Sista THE FAIL sign your tests
Silence You're in the presence of the finest
When u in my presence salute me like DIPSET
The girls getting wet like I'm h2O
Fuck that old depressive rap cuz we need that cash
flow
My rap game freezy with Monster Beatz royal temple

I see dead people my mind goin MENTAL
They say I got the word money written on me,
All eyez on me got me lookin like I'm masserati
I can't stand a muthafucka with two faces rollin
For my money with me fuck it dummie blow me u r
phony
Everybody keep on talkin like them fakers really know
me,
Incubatin like a virus ready to hit em when I meet em
Ain't nobody ready for me they be shakin like a jelly,
Rhythm start to coughin start to freezing made a
muthafuckin blizzard
I gotta weapons with ammos and via street wires
connections with rappers
From USA
My momma used to put speed in my milk I'm so fast u
can't follow me u'r
Illiterate
Winter is mad at me cuz I'm the coldest, summer is
mad at me cuz I'm the
Hottest

I'm just makin a music, dealin like I'm trappin
