VERSE 1

We are on the run tonight
We never face the dark
Down there, lonely.
We never lose control
'Cause we are making up distance
So close
In other words you better
Give your friends all you can
If it makes you sweat
You gotta ask yourself
Am I good or bad?"

Chorus

After all we have done
It's still running in your veins
When the night turns to day
You're still living with the fear
Your fear are haunting for this LIFE ALL through the
night
It's still running in your veins
It's running in your veins

VERSE 2

If you wanna change your life
It doesn't mean that you have to
Stay strong
It always sound more better
Help you stand up
Straightned, facing
If a stranger comes to you
And tries to push you down in the face
Together in the darkness
You can feel the power in your hands

Chorus

After all we have done
It's still running in your veins
When the night turns to day
You're still living with the fear
Your fear are haunting for this LIFE ALL through the
night

It's still running in your veins
Oooooo
It's running in your veins

VERSE 3

Put the fire on
Bleeding for the heat
Feel untouchable
Pointed out of stars
It's all there is for now
When tomorrow shows it's face
You'll be seeking your reality
Life is what the future brings

Chorus

After all we have done
It's still running in your veins
When the night turns to day
You're still living with the fear
After all we have done
It's still running in your veins
When the night turns to day
You're still living with the fear
Your fear are haunting for this LIFE ALL through the
night
It's still running in your veins.
