Never wanted it to be like this end it on this kiss, come closer

Who knows just where I'll go or where youve been, I wonder

Just who are we to brush our lips with faith upon our downfall

Sweat the nothings of it blankly, feel the heat within the sheets

The prescence very weakens, give me all in what I need

A kiss is a lovely trick, yes a lovely trick

When it soon will all be missed

Could it be that I'm falling deep, yes I've fallen deep

But silence holds our lips

These patterns can't fight the truth sweet accompliss you, don't forget

Been here before with walls and all our guilt, don't tell me

Just who we thought could play the fault with pride of all my downfalls

Sweat the nothings of it blankly, feel the heat within the sheets

The prescence very weakens, give me all in what I need

A kiss is a lovely trick, yes a lovely trick

When it soon will all be missed

Could it be that I'm falling deep, yes I've fallen deep

But silence holds our lips

Did you know my dear friend that I have plans for you.

I'll place my cold bare hands upon your neck so

discreetly, discreetly

So discreet.

A kiss is a lovely trick, yes a lovely trick

When it soon will all be missed

Could it be that I'm falling deep, yes I've fallen deep

But silence holds our lips

I'm torn now  
Dear friend how  
I'm torn now  
So lovely  
This one kiss  
So lovely  
This kiss I planned for you
