

Ren & Stimpy "Dolphins Prayer"

Visit "[Dolphins Prayer](#)" on MotoLyrics.com

Thousands of years
Dolphins have been here
Now they must leave us
Go to rest
You are so blessed
Voices of the Light
Teaching the world of love
Changed the tide for man
Ebbs flow
Free
We understand
We send you love
We send you on your way
Sacred in Peace
Silence brooding deep
Glorious will be
Earth and sea
We understand
We send you love
We send you on your way
Your journey home
So sweet without pain
United with man
As it was
Will again
Love
