Somewhere I had seen you
Just a face within a crowd
Softly touch my shoulder
Maybe you can tell me why
I hear your voice
In the wind while I'm sleeping
In my dreams I can see you
You're smiling at me

You, (I love you Luminai) you colour all my darkest
nights
And keep my spirits dancing (I love your Luminai)
Until the morning
When, (I love you Luminai) I hold your face inside my
hands
My fingers start to tremble (I love you Luminai)
As I try to kiss you

You have such a strange name
From some far off distant place
Can you stay forever
Always be inside my space
I feel you move
In the wind while I'm sleeping
In my dreams I can feel you
Your're laughing with me

You, (I love you Luminai) you colour all my darkest
nights
And keep my spirits dancing (I love you Luminai)
Until the morning
You, (I love you Luminai) you take me to a higher plane
And open up my senses (I love you Luminai)
To love never ending

I feel your hand
On my heart while I'm sleeping
In my dreams I can touch you
You're holding me tight

You, (I love you Luminai) you colour all my darkest

nights
And keep my spirits dancing (I love you Luminai)
Until the morning
Now, (I love you Luminai) we'll never be alone again
You'll stay with me forever
My love, Luminai
