"I Could Love Again"

Visit "[I Could Love Again](#)" on MotoLyrics.com

I thought that I couldn't love again
Till I saw you tonight
Every word you say
Smiles you throw my way
Filled my heart with tenderness
Once I was in love before
But my heart was broken
Every place I've been
All the beauty I have seen
Nothing means as much as you

Baby I'm in love
So in love with you
I just can't believe
That I could feel the way I do
Yes I'm so in love
So in love with you
This feeling of love will never, never end
I never thought that I could love again

I have finally found someone
Someone who really cares about the way I feel
Everything that I do
And fill my heart with happiness
I've waited for a long time
For a moment like this
Now that I've found love
It must not slip away
We'll always be together

Baby I'm in love
So in love with you
I just can't believe
That I could feel the way I do
Yes I'm so in love
So in love with you
This feeling of love will never, never end
I never thought that I could love again
