"Let My Love Find You"

Let my love find you
If it takes all night
We can sleep tomorrow
In the warm sunlight.

There's a new day coming
In a future bright
Let my love find you
It will be all right.

Let my love find you
It will be alright.

May your spirit guide you
May it brightly burn
For the truth inside you
May you always yearn

May I walk beside you
As we live and learn
May your spirit guide you
Everywhere you turn.

May your spirit guide you
Everywhere you turn.

Oh baby, this is a dream
I have for us tonight
Baby, this is a prayer
I will say before I sleep
Hoping it will keep us together,
forever.
