(Hello)

You and me, second grade
Livin' on the same street
Hangin' out, everyday
Like a brother to me
I hope you still feel like
We're meant to be friends for life

If anything brings you down
Don't you feel like
There's no one around, call me

(Hello)

Wanna be the one you turn to
When you're down and you need to talk
Even in the middle of the night
You can call me, I'll try to make it right

Even if it's just a silly thing
I will listen and be your friend
I hope you know
That you can always count on me

Nowadays, like me
Got your life and I got mine
Very soon, as we meet
We have a great time
And you could never tell
Any time has passed at all, at all, yeah

If anything brings you down
Don't you feel like
There's no one around, call me

(Hello)

Wanna be the one you turn to
When you're down and you need to talk
Even in the middle of the night
You can call me, I'll try to make it right

Even if it's just a silly thing
I will listen and be your friend

I hope you know
That you can always count on me

Wanna be the one you turn to
When you're down and you need to talk
Even in the middle of the night
You can call me, I'll try to make it right

Even if it's just a silly thing
I will listen and be your friend
I hope you know
That you can always count on me, yeah

(Hello)
Hey
(Hello)
Hey

If anything brings you down
Don't you feel like
There's no one around, call me

(Hello)
Wanna be the one you turn to
When you're down and you need to talk
Even in the middle of the night
You can call me, I'll try to make it right

Even if it's just a silly thing
I will listen and be your friend
I hope you know
That you can always count on me

Wanna be the one you turn to
When you're down and you need to talk
Even in the middle of the night
You can call me, I'll try to make it right

Even if it's just a silly thing
I will listen and be your friend
I hope you know
That you can always count on me
