"Can't Stop My Love"

I can feel my feet losing ground
And my head won't quit spinning round
And I can't control what's going on
No, no, no, no

But I know for sure what it is
And I'll take my shot, hit or miss
Gonna bring it home
No matter what you say, baby

Every little thing about you
Makes me realize you're the one
My hand is on the trigger
You ain't got no place to run

You can't stop my love
Come a little closer
You can't stop me now
No baby

Nothing's standing in the way
Don't you try to fight it
Show me what you're made of
You can't stop my, stop my love

Ah, ah, ah, ah, ah, ah

You say you do then you don't
You say you will when you won't
But you can't deny what's going on
No, no, no

I know you're playing games, hard to get
But they're better off to put you to bed
'Cause you're gonna fall
No matter what you say, baby

Every little thing about you
Makes me realize you're the one
My hand is on the trigger
You ain't got no place to run

You can't stop my love
Come a little closer
You can't stop me now
No baby

Nothing's standing in our way
Don't you try to fight it
Show me what you're made of
You can't stop my, stop my love

Ah, ah, ah, ah, ah, ah
You can't stop me, my love
Ah, ah, ah, ah, ah, ah

I cant believe the things you do to me
I'm all mixed up, I can't even sleep
But I won't give in, until I get to you

No matter what you say
No matter what you do
I won't stop my love for you
You can't stop my love no, baby

Nothing's standing in our way
So don't you try to fight it
Show me what you're made of
You can't stop my, stop my love

You can't stop my love
Come a little closer
You can't stop me now
No baby

Nothing's standing in the way
Don't you try to fight it
Show me what you're made of
You can't stop my, stop my love

Ah, ah, ah, ah, ah, ah, ah, ah
Can't stop my love
Ah, ah, ah, ah, ah
But ya can't stop my love
