lookin far as I can see
a head is blocking my TV
what you want for me to say
I said whatever go away
what is it that I adore?
if you pay me then Ill tell you more
you're looking for some reason why
I'm arrogant
and I'll tell you what

Chorus:
hey sometimes that's how I do
(that's just how I do and that's just how I do)
if you feel that bad maybe its not for you
hey sometimes that's how I do
(that's just how I roll and that's just how I stroll)
if you feel that bad maybe its not for you

(Chorus)

A dead end street from what I can tell
long as you're not there it might be swell
pack a picture perfect apple pie
for a cherry poppin spring joy ride
to get inside this head of mine would take a monkey
wrench
and a lot of wine
and if you're wondering about this life I choose,
grab a mirror and take one look at you

(Chorus)

And I can't tell you why people act so crazy
and if I say I wont go you tell me I'm damn lazy
don't understand no conviction for nothin
just keep their heads noddin, keep their heads noddin

(chorus)
