"Medicine"

Visit "[Medicine](#)" on MotoLyrics.com

Conscious again
Feels like the end
You can hardly speak up now

You're stomach is empty
Has been for a while
There's just one thing on your mind
Can't you see you're out of line?

You've lost all your friends
In just one blink
But every thing's fine

You've lost your self-respect
Yeah, you've lost yourself
As you reach for the needle now
This fucking medicine

Tomorrow and yesterday seem all the same
You're just lost somewhere inside

Oh yeah, that sensation again
Everyone here seems to go and remember

You've lost all your friends
In just one blink
But every thing's fine

You've lost your self-respect
Yeah, you've lost yourself
Which drags you down, down, down

This fucking medicine
This fucking medicine
