Sparks in your eyes
And I wonder why
Hiding deep inside
The back of my mind
The stars in the sky
Like sparks in your eyes
Hiding deep inside
The back of my mind

Everytime that I make you smile
I see something real in your eyes
All this time you made me realize
I still can't deny girl of my life

You're the girl of my life and please realize
You've got to open your eyes
I think it's time now
It's time to realize
The plan we have in mind

Look at the sky
What can you find?
I'm still searching
To be breathing again
Tears in your eyes
I must emphasize;
You've got something that I would like in the end

You've got to be the one in my life
