

## **Reset "Virtuality"**

Visit "[Virtuality](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Welcome to a new dimension  
Where things are not the same  
A world without limitation  
Where life is not a game  
Breathe and experience now  
A new way of living  
Welcome to a revolution  
Where life can be explained

I don't if I will survive inside  
'Cause sometimes virtuality  
Might strike, it might strike  
I don't know if I'm really strong enough  
And face something virtual

I feel like I've never felt before  
A feeling that I cannot describe  
And yet again  
'Cause I feel like I've been but in my place  
A feeling that I cannot describe  
And yet again

Follow the new dimension  
Where people aren't the same  
A world without regulation  
Surviving's not a game  
Breathe and experience now  
A new way of living  
Welcome to a revolution  
Where life can be explained
