You're the sun, girl, oh  
Shine your light into my world, oh  
And now my love goes around, round, round  
Ra ra ra round yea  
Round, round, round for you

You're the starlight, oh  
Girl I could stare at you all night, oh  
So fly I'll never come down, down, down  
Da da down, down yea  
Down, down, down for you

Taking off  
Your love puts me on a cloud  
I never wanna touch the ground  
I never wanna touch the gr-gr-ground

Zero gravity

You're the moon girl, oh  
Look how you light up the room girl, oh  
And I like spending every day, day, day  
Da da da day yea  
Day, day, day with you

How did you open up my heart  
Yea you did it, you did it  
And when I feel your touch girl  
You give me wings to fly away, way, way  
Wa, wa, wa, way, yea  
Way, way, way with you

Taking off  
Your love puts me on a cloud  
I never wanna touch the ground  
I never wanna touch the ground again

And when you smile  
There is zero gravity now  
I never wanna touch the ground  
I never wanna touch the gr-gr-ground

Zero gravity

Just wanna float forever

I don't wanna touch down  
I don't wanna touch down  
I don't wanna touch down  
I don't wanna touch down

Wanna float forever

I don't wanna touch down  
I don't wanna touch down  
I don't wanna touch down  
I don't wanna touch down

Taking off

Your love puts me on a cloud  
I never wanna touch the ground  
I never wanna touch the ground again

And when you smile

There is zero gravity now  
I never wanna touch the ground  
I never wanna touch the gr-gr-ground

Zero gravity

Zero gravity
