I'm living in vain  
I'm just watching the rain  
I wanna get out  
But I just don't know how  
I used to have a girlfriend  
Who gave me a valentine  
At first it made me nervous  
But then I think it made me fine  
Because I'm living in vain  
I'm just watching the rain  
I wanna get out  
But I just don't know how  
I used to have a grandma  
She always called me "dear"  
I never knew her purpose  
I only knew her atmosphere  
Because I'm living in vain  
I'm just watchin the rain  
I wanna get out  
But I just don't know how
