"Nobody Laughs When They Leave"

Everyone comes the to freak show
To laugh at the freaks and the geeks
Everyone comes the to freak show
But nobody laughs when they leave

We are only equal
In the grave and in the dark
Said a man whose head
Was halfway eaten by a shark

Now if you ask me why
I would continue on like this
I doubt that I would know so
I could only make a guess
Half a mouth may not be much
But it's still half a kiss

Everyone comes the to freak show
To laugh at the freaks and the geeks
Everyone comes the to freak show
But nobody laughs when they leave
