

## The Tragically Hip "Emergency"

i've often dreamt of a conversation that just keeps  
coming up again and again. we're sitting in the baby  
bar bereft at a shadowy

table out past the sentences end from until it's no  
longer fun to that's no longer relevant from until we're  
no longer one to the

bona-fide embodiment of an endless emergency  
without end we're an endless emergency without end

we often stop in these conversations, things we say  
here stay here forever amen when everything seems  
either funny or lousy,

funny or lousy, that's where it usually ends from until  
we're no longer fun to that's no longer relevant from  
until we're no

longer one to that's no longer permanent from the last  
survivors of those terms to the bona-fide embodiment  
of an endless

emergency without end we're an endless emergency  
without end we're an endless emergency without end,

but your finger starts to wiggle and landscapes  
emerge
