it was handsome at the auction, oh but when we got it
home, it grew up into something we could no longer
contain where's

our pigeon camera, by now he could be anywhere and
after all that training and after all that training,
something we could no

longer contain it's boring, i'm embarrassed, i don't
endorse that, i didn't want this

this house it has it politics; over there that's my room
and that's my sister's and that's my sister something
we could no longer

contain it's boring, i'm embarrassed, i don't endorse
that; i didn't want this, it's horrific, i'm embarrassed, i
didn't want that, i

didn't want this it's like we burned our boots with no
contingency plan
