richard talks too slow he'd get interrupted long before i
always loved that guy and he's not on t.v. anymore to
get before he had

the wherewithal to get out before he had the
wherewithal

you've got to coax him slow, that's the only way that
he'll confess tell him that the truth will help him live with
less to get out

before he had the wherewithal to get out before he had
the wherewithal that's a breathy body of work set your
sights inward

for a leaner look

richard died real slow, he won't get interrupted
anymore i always loved that guy and he's not on t.v.
anymore to get out before

he had the wherewithal to get out before he had the
wherewithal
