thompson girl, i'm stranded at the unique motel  
thompson girl winterfighter's shot on the car as well  
looks like christmas at 55 degrees this latitude  
weakens my knees, thompson girl grunt work  
somewhere between dream and duty poking through  
with all them shoots of beauty thompson girl walking  
from chruchill across the icy world with polar bears it's  
mostly uphill but when she saw that nickel stack she  
whistled hard and i whistled back, thompson girl grunt  
work somewhere between dream and duty poking  
through with all them shoots of beauty grunt work  
somewhere between dream and duty poking through  
with all them shoots of beauty thompson girl were  
down to the dead houseplants thompson girl we've  
jettisoned everything we can she says springtime's  
coming wait til you see it poking through with them  
shoots of beauty it's the end of rent-a-movie weather  
it's time to end this siege together, thompson girl  
thompson girl thompson girl thompson girl
