A Blue Kiss  
Coloring me goodbye  
A New Kiss  
Could never feel so fine  
Tomorrow  
I'll be living in black & white

Why? Does it have to be such a Blue Kiss  
When I kiss you  
Now! I'll color my world with a Blue Kiss  
I've got kisses for you

Red Lips  
Kissing away my fears  
A Blue Kiss  
Bringing me back to tears

Why? Does it have to be such a Blue Kiss  
Yeah this kisses are blue  
Now! I color my world with a Blue Kiss  
I've got kisses for you

A prison of love surrounded us  
Don't you see what our hearts knew  
How can you choose on what kind of world  
When you know I've got a rainbow for you

Last night a spectrum filled the sky  
This morning you're shattered with your goodbye

Why? Does it have to be such a Blue Kiss?  
When I kiss you  
Now! I'll color my world with a Blue Kiss  
I've got kisses for you
