"Show Me A Smile"

Visit "[Show Me A Smile](#)" on MotoLyrics.com

Show me a smile and then kiss me
Tell me you love me again
Come to my room and then lie in my bed
I love you, you know
Although sometimes it just doesn't show

Love me forever
Love me all night through
Love me for a lifetime
I live my life for only you

Giving is my way of loving
It's the only way that I know
I've got nothing much
I've got nothing to show
I love you, you know
Although sometimes it doesn't seem so

Love me forever
Love me all night through
Love me for a lifetime
I live my life for only you
