I will survive in this day or night  
No matter where I go I'll keep struggling  
In the endless pain truth may not appear  
Desire for compassion, die or survive

Die or survive with the face of a lonely man  
I must fight, because I can

Die or survive trough my vains runs the holy pain  
I will fight to the end

Life gives me challenge, life gives me hope  
But I refuse all good and special  
And take all that's left from the ruins  
I may abandon my dreams

Die or survive with the face of a lonely man  
I must fight, because I can

Die or survive trough my vains runs the holy pain  
I will fight to the end
