Sometimes a woman and a man make plans
And then change in the middle of the stream
Why does the flame die, and where does the blame
lie?
And what becomes of their dreams?

Will I be startin' on my own again brand new?
Or will I be rebuilding what I once had with you? Tell me

Say you don't need me and I'll be gone
Say that you want me and I'll come home
I can take anything but standing in the dark
Don't hold nothing back, please say what's in your
heart

We always said we'd tell each other everything
That we were feeling deep inside
Now when I see your eyes, no matter how you try
You're feeling something you can't hide

Everyone knows the way that love's supposed to be
But in the real world there ain't no guarantee, baby

Say you don't need me and I'll be gone
Say that you want me and I'll come home
I can take anything but standing in the dark
Don't hold nothing back, please say what's in your
heart

I'll still love you no matter what you say
I'll stand beside you, but I won't stand in your way, baby

Say you don't need me and I'll be gone
Say that you want me and I'll come on home
I can take anything but standing in the dark
Don't hold nothing back, please say what's in your
heart
Just say what's in your heart
