We stand undivided
Forever united
Fighting hand in hand
For the liberty we've earned
Chorus:
For the glory and honor
For our sons and daughters
Ever mindful of the lessons we've learned
Let the torch of freedom burn

Ships out in the harbor
Laying on the ocean floor
Left there to remind us
Of a cause worth dying for

Fields of fallen heroes
Their names etched in the stone
But it's a bitter tie that binds us
To this land that we call home

It took a lot of brave men dying
Now we finally realize
That these tears that we've been crying
Are here to testify

[chorus]

A city torn and searching
For the innocence they lost
Twisted steel and ashes
At the tomb of freedom's costs
oooh, Then a cry rang out for justice
That raced across the land
From all who died before us
From the brotherhood of man

So let's light the torch of freedom
And ol' glory be unveiled
Lift your eyes to heaven
And let the best in men prevail

[chorus]

Through it all the evils fights you and I
We've got to hold the torch of freedom high

[chorus]
