Whenever you fall, whenever you cry, whatever you need, I'll stand by your side
I gave you my word, your dreams are betrayed by people like me, by people so vain.

Come on and save me, say a prayer for me tonight, save me like the wind, save me,
help me please to make it right, save me, save the day.

We try to possess the stars in the sky but down here on earth we are loosing our minds,
So I need to find a new piece of mind, forgive me my son and help me survive.

Come on and save me, say a prayer for me tonight, save me like the wind, save me,
help me please to make it right, save me, save the day.

Give me your love and forgive me my son , please don't leave me alone in the middle of nothing,
Give me your hand and forgive me my friend because I'm guilty, Come on and save me, save me

Come on and save me, say a prayer for me tonight, save me like the wind, save me,
help me please to make it right, save me, save the day.

Come on light the way!!!!
